#### FOREIGN LANGUAGE SYMBOLS

A symbol in parentheses after the modification indicates the foreign language of the article to which reference is made. When the article does not require modification of the main heading or subheading, the language symbol stands alone. Absence of such a symbol indicates that the article is in English. The symbols used are the first too letters, if the second is a consonant, or the first three letters, if the second is a vowel, of the name of the language, as follows:

Af	Afrikaans	Ger	German	Rum	Rumanian
